

EVENTIX - Acceptance Testing (UAT)

Web-Based OTP Authenticated Event Scheduling and Attendance Management System

CCF B1G Ministry | 2nd Semester SY 2025-2026 | PUP Capstone Project

Conducted with B1G Ministry respondents (23 total: 15 Participants, 5 Event Heads, 3 Head Admin and Administrators) to determine if the system meets client and user approval. Based on ISO 25010 Software Quality Model.

4.1 FUNCTIONALITY			
ID	Feature / Criteria	Acceptance Criteria	Result
UAT-01	OTP Authentication	The system successfully sends OTP via email and verifies the user within 5 minutes	
UAT-02	Event Registration	Participants can register for events with one click using their reusable profile	
UAT-03	Table Management	The system correctly assigns participants to tables using fill-first algorithm and gender routing	
UAT-04	Attendance Tracking	Event heads can track real-time check-in and check-out for all participants	
UAT-05	Volunteer Management	Any logged-in user can sign up as a volunteer by scanning the QR code and selecting a role	
UAT-06	Reporting	The system generates participant journey summaries, inactive member reports, and cross-event analysis	
UAT-07	Admin Panel	Administrators can manage users, venues, event categories, and system settings	
UAT-08	Announcement System	Event heads can send reminders and announcements to all confirmed participants via email	
4.2 USABILITY			
ID	Feature / Criteria	Acceptance Criteria	Result
UAT-09	Navigation	Users can navigate the system without assistance or training	
UAT-10	Mobile Responsiveness	The system is fully usable on mobile devices and smartphones	
UAT-11	Registration Time	Participant registration time is reduced from 3-5 minutes to under 30 seconds	
UAT-12	Interface	The system interface is visually clean, organized, and easy to understand	
4.3 RELIABILITY			
ID	Feature / Criteria	Acceptance Criteria	Result
UAT-13	Data Integrity	All registration, attendance, and volunteer data is saved accurately without loss	
UAT-14	System Stability	The system runs without crashes or errors during normal event operations	

UAT -15	Auto-Recovery	Failed OTP delivery allows retry without losing registration progress	
------------	----------------------	---	--

4.4 SECURITY

ID	Feature / Criteria	Acceptance Criteria	Result
UAT -16	Authentication	Unauthorized users cannot access any dashboard without valid credentials and OTP	
UAT -17	RBAC	Participants cannot access Event Head or Admin features	
UAT -18	Data Protection	Passwords are stored as hashed values and not visible to any user or admin	
UAT -19	QR Token	An expired or invalid QR token cannot be used to sign up for volunteer events	

4.5 PERFORMANCE & EFFICIENCY

ID	Feature / Criteria	Acceptance Criteria	Result
UAT -20	OTP Delivery	OTP email is delivered within 30 seconds of request	
UAT -21	Table Assignment	Table assignment is completed automatically upon registration with no delay	
UAT -22	Real-Time Attendance	Check-in and check-out status updates are reflected immediately	
UAT -23	Report Generation	Reports are generated and available for download within 10 seconds	

CLIENT & ADVISER SIGN-OFF

The undersigned confirms that the Eventix system has been tested and evaluated based on the acceptance criteria above and meets the requirements of CCF B1G Ministry.

Client Representative: Mr. John Kervin Malaluan (B1G Head Admin)

Signature: _____ Date: _____

Capstone Adviser: _____ Date: _____
